DARING SEA CAPTAIN DIES IN QUAKER CITY
PHILADELPHIA, Oct. 14.—Narrowly escaping death twice within a year when ships he commanded were destroyed, one by a German submarine and the other time by ice in the White Sea, Eugene B. Delk, a widely known sea captain, died suddenly at his home here today from heart disease.

While in command of the steamer Leelanaw, he ran the British blockade and landed a cargo of cotton at Bremen. On a voyage later in returning to this port from Archangel his vessel was torpedoed by a German submarine and he and his crew were towed in small boats to the Orkney Islands. He was then given command of the Carolyn which was ground to pieces in the ice of the White Sea as he was carrying a cargo of automobiles and structural steel to Russia.

How Catarrh is Contracted.
Mothers are sometimes so thoughtless as to neglect the colds which their children contract. The inflammation of the mucus membrane at first acute, becomes chronic and the child has chronic catarrh, a disease that is seldom cured that may prove a life's burden. Many persons who have this loathsome disease will remember having had frequent colds at the time it was contracted. A little forethought, a bottle of Chamberlain's Cough Remedy judiciously used, and all this trouble might have been avoided. Obtainable everywhere. (Advertisement)

Michigan-Verde Copper Company

WE ARE PLEASED TO ANNOUNCE that we have been appointed fiscal agent for the Michigan-Verde Copper Company "to be organized" and are offering a small block of preorganization shares at twenty cents per share. We believe this block of preorganization stock will be heavily oversubscribed, due to the excellent showing, the fact that it lies in the heart of the Jerome Mining District, and the fact that every other company recently organized has found it necessary to return subscriptions. We therefore urge you to telegraph for reservation of stock immediately.

This property comprises twelve claims, two of which adjoin the United Verde Extension, United Verde and Verde Grande. A large and well defined vein runs through this property for about three thousand feet, and, according to well informed mining engineers, a rich copper ore body may be expected, with proper development, at a depth of less than eight hundred feet. Remember, Green Monster was started at 75 cents and is now selling at around \$4.00. Hundreds of thousands of dollars in subscription, it said, were returned. United Verde Extension started at around 50 cents and is now selling at around \$40.00.

The stock of practically every company in this district has doubled and trebled within the past few months. The Michigan-Verde Copper Company has the same opportunity to make a big mine as any property in the district.

DON'T WAIT UNTIL THESE SHARES HAVE REACHED THE DOLLAR MARK BEFORE PURCHASING. GRASP THE OPPORTUNITY—BUY NOW.
